**D O R O S** This is the Season for good Hus-

bands to lop and prune superfluous

Branches from Fruit-trees: Un-

cover their Roots; for all kind of

Quick-fets and Fruit-crops in the

New of the Moon. Be sure the

Wind be not North, nor East; and

set the same sides to the South and

West, which grew as the first. See

Beans, Pease, and Parsnips: The

Weather mild, and Moon decreas-

ing, Dig Gardens: Drench weak

and sick Cattle, Kine, with Verjuice;

Horses with Water and Ground

Malt, foulden with a little Bran.

In this Month let not Blood, nor

use Physick, unless necessity con-

strain thee; beware of taking cold,

for Rheumes and Flegm do much in-

crease this Month: Its harmful to

fast long, to drink White Wine.

Nothing is good. The Moon, almost

moderately hot, for the best Physick

is warm diet, warm Cloaths, and a

merry honest Wife.

**D O R O S** Now regarding the Wind and  
Weather, graft, cut Quicksets,  
cover the Roots of Fruit-Trees  
(opened in December and Janua-  
ry) with fat Earth, sow Oats,  
Barley, Parsnips, Onions, Car-  
rots, Melons, Cucumbers, and all  
kind of Pot-herbs. Slip Artichokes and Sage, and sow all man-  
ner of Garden Seeds.

*A 1 2*  
Now advise with the honest and  
able Astrological Physician; it is  
good to purge and let blood; for  
in this month the humours and  
blood increase, and gross feeding  
breedeth gross blood and humours;  
therefore use meats of good diges-  
tion, and such as afford good juice  
and nutriment to the body: for-  
bear all things that purge the blood  
by poisons and blood-letting;  
sweet meats and drinks are con-  
mendable as sure to eat in the  
morning before you drink.

**D O R O S** This month commands the pro-  
 vident Housewife, and the prudent  
 Artificer, to set their Stills on work.  
 In the beginning of the Month  
 sow and set those tender Summer  
 Herbs that would not endure the  
 former cold. Weed your Hop Gar-  
 dens, cut off superfluous Branches,  
 Moss Trees and Gardens, and  
 weed Corn; rise early and walk  
 the Fields and Gardens.  
 Now every Garden and Hedge  
 affords thee Food and Physick. Rise  
 early, walk the Fields by running  
 Streams, the North and West sides.  
 Sage and Sweet Butter, an excel-  
 lent breakfast. Clarified Whay with  
 Sage. Scurvey Grass Ale, and  
 Worm-wood Beer, are wholesome  
 Drinks. Green Whay excellent  
 against Choler. Eat and drink be-  
 times in the morning. Abstain from  
 Meats that are hot in Nature, and  
 salt in Quality.

# Observations on August.

Last quarter the 7 day, 3 min. past 7 morning.  
 New Moon the 14 day, 25 min. past 5 morning.  
 First quarter the 22 day, 25 min. past 5 morn.  
 Full Moon the 29 day, 45 min. past 5 afternoon.

**DO** **OS** Now with thankfulness reap your  
 desired Harvest: sow Winter Herbs  
 in the New of the Moon. Esteem  
 fair weather as precious, and mis-  
 spend it not. Gather Garden-seeds  
 near the Full. Use moderate Diet;  
 forbear to sleep presently after meat.  
 Take heed of sudden colds  
 and heat.  
 Beware of Phisick and Blood-  
 letting in the Dog days, if the Air  
 be hot; otherwise, if occasion re-  
 quise, you may safely make use  
 thereof. Now moderate Diet is best  
 beware of Surfeits, Heats, and  
 Colds, for Plurisies are engendred  
 thereby. Use not to sleep much, es-  
 pecially in the afternoon, for that  
 brings opilations, headach, agues,  
 and Cathars; and all notorious dis-  
 tempers of the same kind. Red  
 Wine and Claret are excellent Re-  
 medies for Children against the  
 Worms.

## A Description of the four Quarters of the Year.

**T**he *Spring Quarter* begins this year upon Tuesday March the 9th at 48 min. past 2 in the afternoon, at which time the Sun enters the *Aquinoctial Sign Aries* causing an Equality of day and night all the Habitable World over. *Summer* Thursday June the 10th, 47 min. past 5 in the afternoon, the Sun then approaches our *Zenith*, and enters the first Scruple of the *Tropical Sign Cancer*, making longest days with us, and shortest nights. *Autumn* or *Harvest Quarter* begins when the Sun touches the first Scruple of the *Aquinoctial Sign Libra*, which this year will be upon Sunday September the 12th, 27 min. past 9 in the morning, again equalizing both day and night. *Winter* begins Friday December 10, 7 min. past 9 at night, the Sun then touches the first Scruple or Point of the *Tropical Sign Capricorn*, making the shortest day and longest night in the year on this Northern side of the Equator, as also the longest day and shortest night to those persons that inhabit the Southern part of the World.

## Of Eclipses happening this present Year, 1680.

**T**Wice this Year will that glorious Lamp of Heaven the Sun be Eclipsed, the first Eclipse happens March 20. at 10 in the morning, which will be very great in it self, though very little of it visible in our Horizon; but to the Inhabitants of America, the *Isle of Cuba*, the *Cape of St. Vincent*, &c. it will appear total. The second time the Sun becomes Eclipsed this year September the 12. at eight at night, but not visible to us because the Sun and Moon are under our Horizon before the Eclipse begins; but such as Navigate near the Port of St. Peter, and the Islands of *Daxaro*, &c. may see the Sun Eclipsed very eminently in their Hemisphere,

**B**uckworth's Lozenges, Famous in all Distases incident  
to the Lungs: Also a great Preservative against all  
contagious Distempers, are now more faithfully and ex-  
actly prepared than since the Authours Decease, by  
James Shipton Apothecary at the Crown in Hatton  
Garden; who only is licensed and recommended by  
the chief Physicians of the Colledge, London, (for pub-  
lick use and benefit) to prepare the same.
